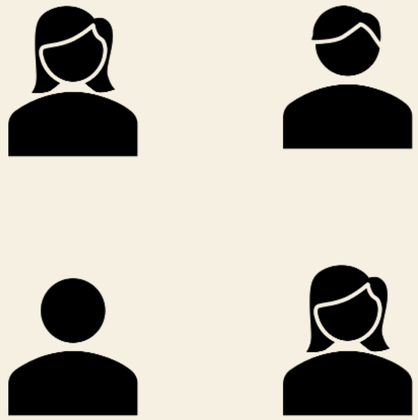
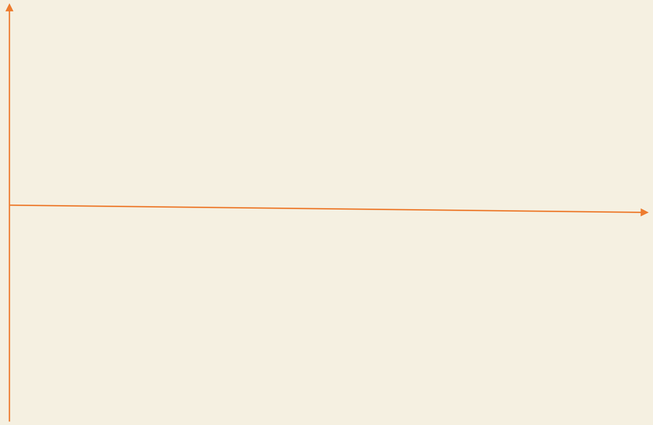
DESIGN/DEVELOPMENT FOR GREECE

Hiring



FIRST USE AND PROMOTION

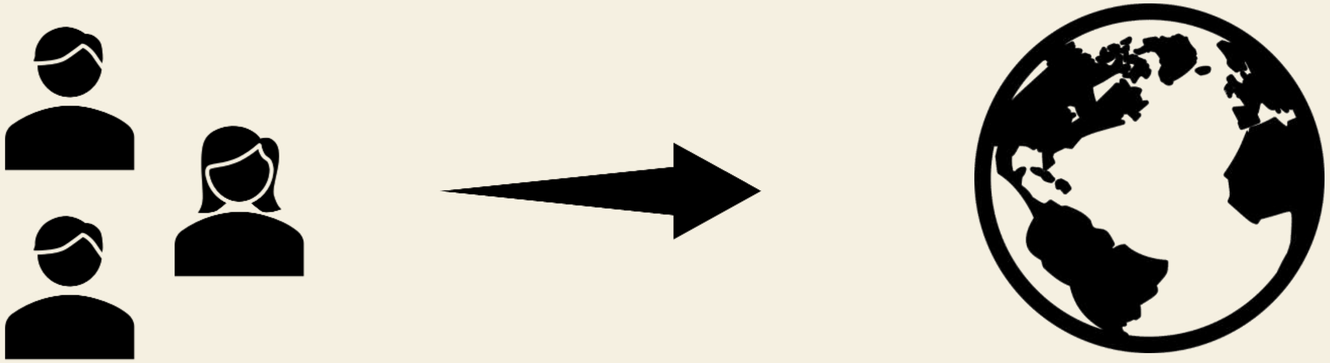
Get feedback



Use of social media to spread the word

Create testing/trial polls in AUEB

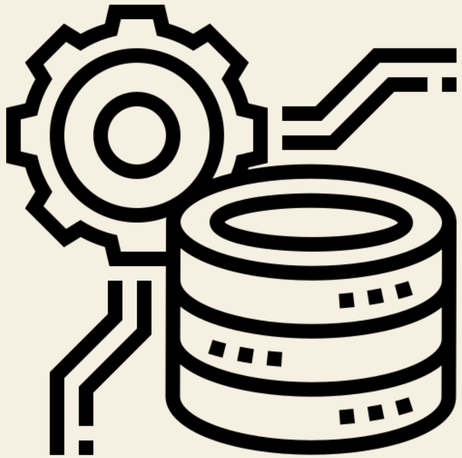
EXTEND APP GLOBALY

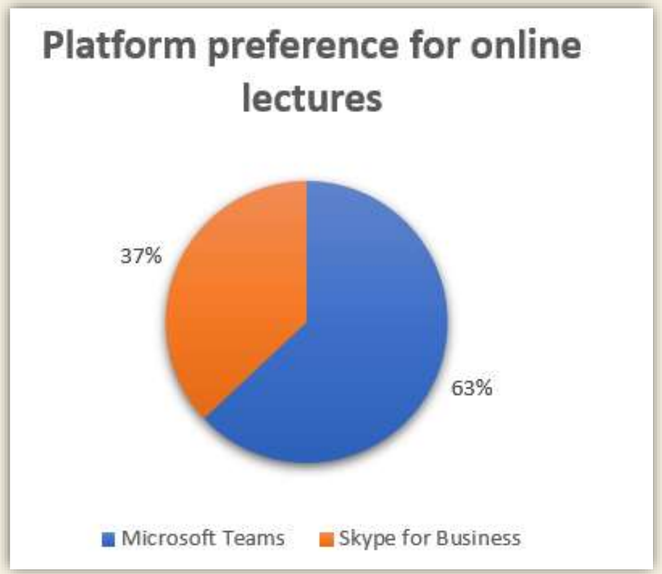


- Review of requirements
- Expanding our team
- Global release

GOAL ACHIEVED

Process data/results -> statistics



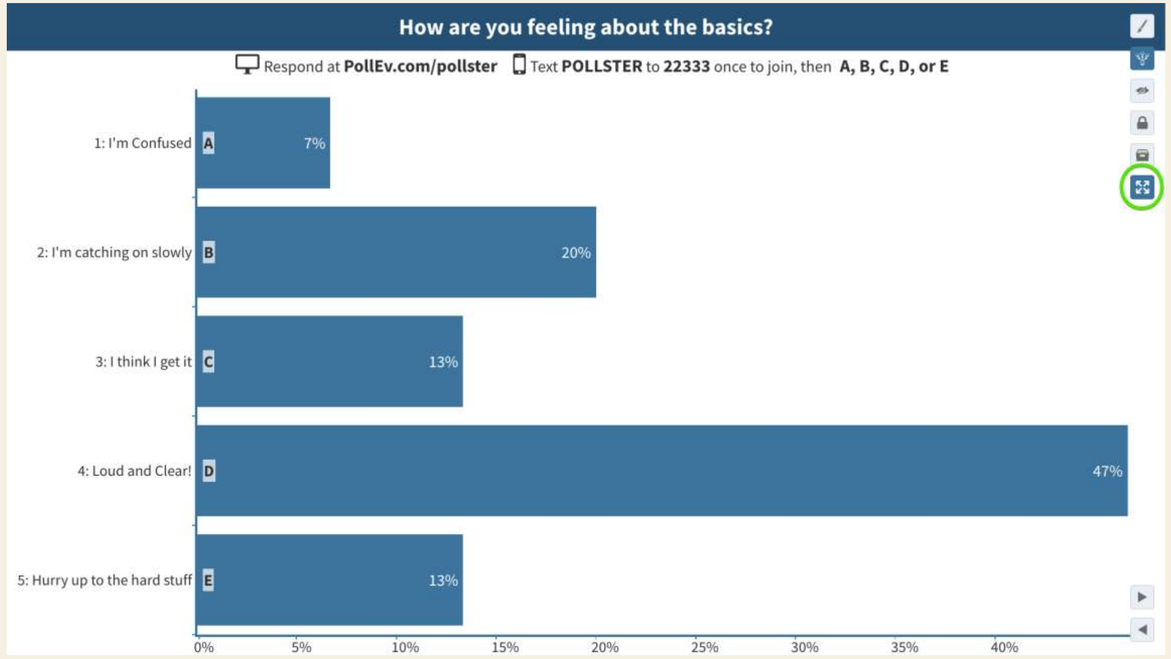


WHY UNIPOLL ?

- Help professors improve their classes
- Solve some of the important University issues
- Make college students think about important questions
- Allow remote users to submit their answers

OUR COMPETITORS

Poll Everywhere



Doodle

VOXVOTE

fast poll

OUR ADVANTAGES

- Some apps offer live audience feedback
- Some apps offer offline voting

- Unipoll offers both !
- Our target is the college community !
- The users are authorized !
- We create valuable statistics !
- Our application is opensource !

STATISTICS

- Statistics are created by sending targeted questions (depends on field of study, university, age, etc)
- Nowadays data mining is changing the way companies take decisions
- That makes our data valuable

NEXT GOAL

- Analyze the collected data
- Maximize user satisfactory
- Integration with Open-Eclass
